

AMENDMENTS TO THE SPECIFICATION**Page 14, line 24:**

In another example, a scheduled meal plan for a kitchen area may include a listing of food-related items and amounts that are necessary for preparing the scheduled meal plan. A scheduled meal plan and necessary food-related items are advantageously determined by an electronic cookbook as described in U.S. Patent Application Serial No. / (Attorney Docket No. AUS000035US1) 09/560,380, herein incorporated by reference.

Page 19, line 24:

Absent food-related items 54 are preferably transmitted in the common transmittable protocol from controller 38 via a communications medium. Advantageously, absent food-related items 54 are transmitted to an electronic market device such as the electronic market device described in U.S. Patent Application Serial No. / (Attorney Docket No. AUS000041US1) 09/560,319, herein incorporated by reference, that places orders for absent food-related items 54 at one or multiple retailers.
